

## **An Adventure Walk**

It's time for you to leave home and go on a book adventure. Hug your family goodbye.

Walk out the door of your house.

You run across fields.

You swim rivers.

You climb mountains.

You encounter a small wizard who gives you a magic item. You decide what it is - a sword, a wand - practice with it!

You continue on your journey and come to a dark forest. On the edge of the forest you run into a scared rabbit, bear, gnome - you decide. You talk to it. You become friends.

You journey into the dark forest. It's spooky. You take out your magic item. You look at your friend. Suddenly a large monster emerges in front of you. What is it - a dragon, a giant spider, an ogre.

What do you do? Do you take your magic item and slay it? Do you talk to it? Become friends with it.

You leave the forest and travel over hills and fields.

You and your friend come to a beautiful palace with a dark cloud looming over it. What do you do?

Welcome to the adventure.
